Dear Suzette,

Morena Lazo placed in our home through the help of Mary in your office. She is a wonderful person and I was most impressed with the professionalism of your agency. I have given your number to many mothers I know who are in search of nannies. I thought you might like also to place an ad in my boy's nursery school adbook. Nursery school parents are very devoted to patronizing firms which advertise in this book and not a week goes by when I don't hear of someone who desperately needs a nanny or housekeeper. I'm sure it would generate an enormous amount of business and it's also a great cause--benefitting scholarships and other good programs. I've enclosed the necessary form. You can attach camera ready artwork--or a business card for the smallest ad, and a check payable to the Hollywood Los Feliz Jewish Community Center. If you'd like a larger ad I'd be delighted to design one for you and send you some samples to choose from. Thanks again for your outstanding service and I hope you are able to advertise it in our annual adbook.

Sincerely,

Layne
