TO WHOM IT MAY CONCERN:

This company was recommended by the Downey Community Hospital Home Health Care as a good source to find Elder care for my mother, Hilda Conner.

I employed their services from June 1993 to July 1, 1995 when my mother passed away. The regular girl we employed was with us the two years and I would use this company to obtain relief attendance on her vacation times. I also used this company to employ the relief attendance for her days off. I had one relief girl for a year when she left for her home town and employed another relief attendant for another year.

Each one I interviewed were very good, but I had to be selective in getting one my mother could understand for she had a hearing problem and certain dialect was hard for her to understand.

I have recommended this company to a number of people and will continue to do so in the future.

Thank you for the service to have given me these past two years.
